

## 7.2 Guided Exercise: Password Policies

### Resources

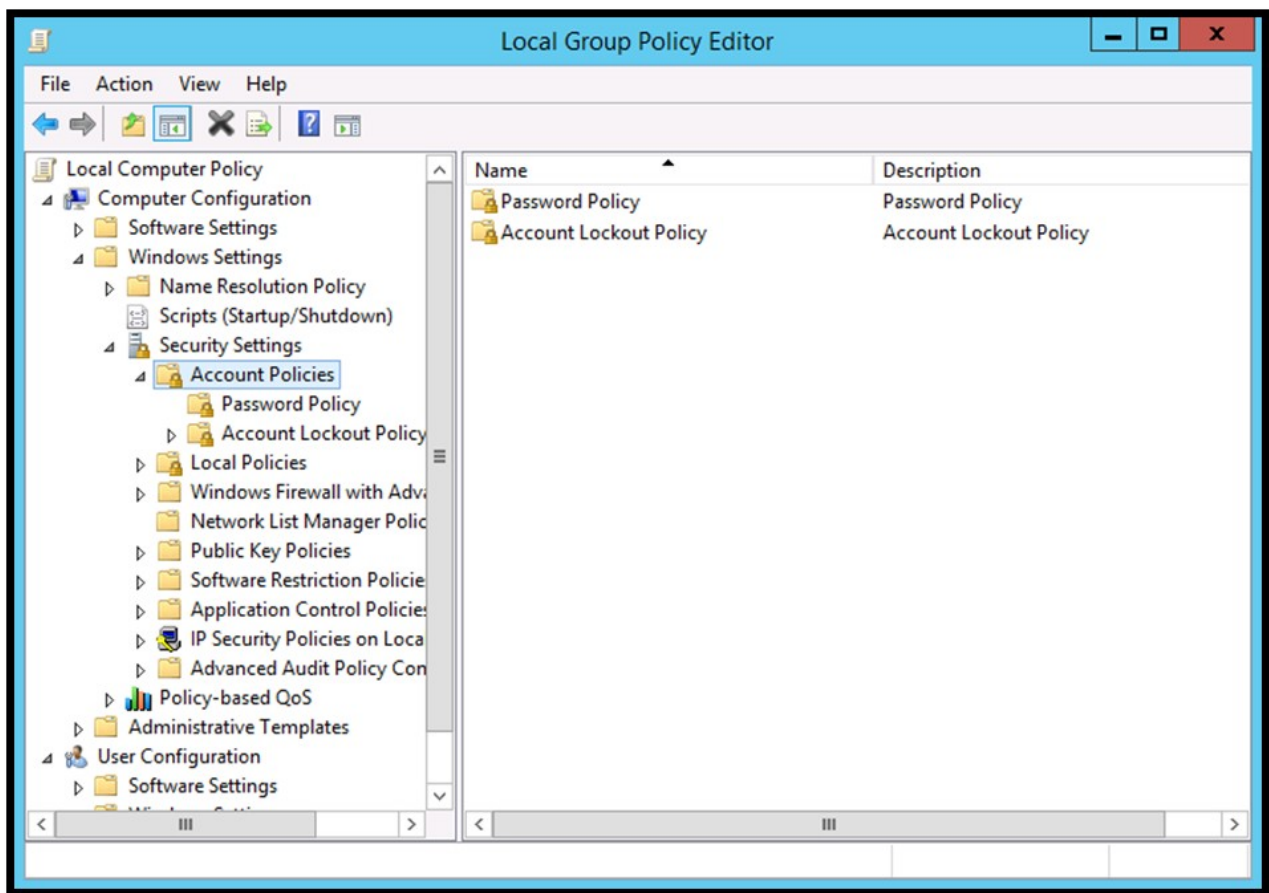

Files	None
Machines	Windows Server

In this exercise you will create a new user account and set its password policies.

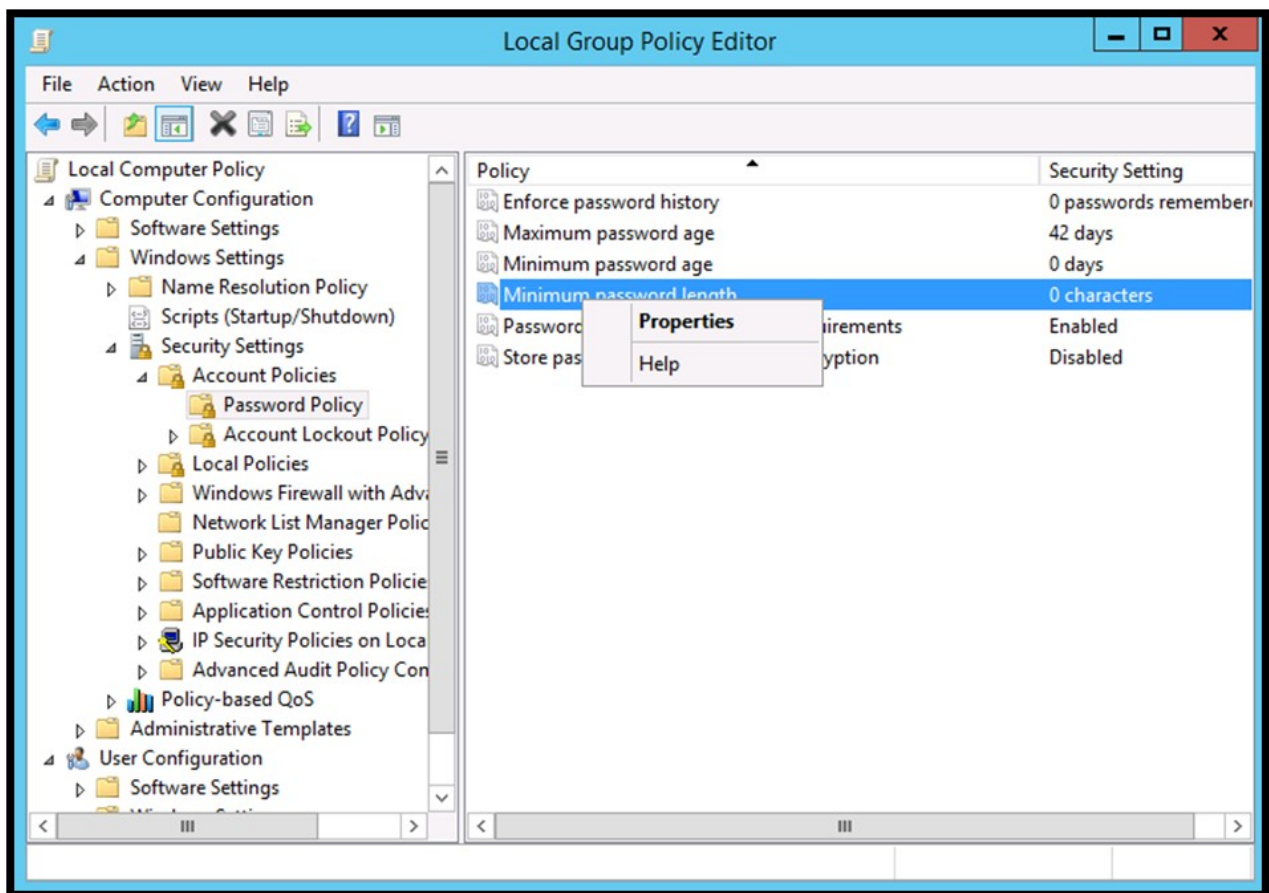

Login to Windows Server, click the Start button, write `gpedit.msc` and press Enter.

The Local Group Policy Editor window will open. Below Computer Configuration expand the folders Windows Settings -> Account Policies.

Click on the Password Policy and then right click on the Minimum password length and select properties.

On the Minimum password length Properties window change the value 0 to 8, click Apply and then OK. Then close the Local Group Policy Editor.
